### Team History:

Brighouse Ladies team have been together since 2007 and have grown from 9 players to 24 players in the two years.

They played in the summer league 2008 for the first time and had a very good season and found their feet quickly. They had a few new signings which included Amanda Wigglesworth and Tish Furness coming out of retirement giving the team some experienced players on the pitch.

The Ladies are currently playing in League 2 of the winter league 2009/2010 under a development status. They are hoping to be dropping the development status for the winter season 2010/2011.

The Ladies had a good start to the season and gelled very well. They have shown great potential and i'm sure will continue to improve throughout the season. The team started off with 17 players at the beginning of the season, this number has rapidly increased throughout the first half of the season and they currently have a squad of 24.

Due to the bad weather we have had this winter the season is due to continue in to April rather than February as first thought.
